

THE POMIECHÓWEK COMMUNITY

The Pomiechówek community provides its inhabitants with proper living, working and development conditions, at the same time showing respect to the natural environment. These conditions are based on a well-developed enterprise, especially in the tourism sectors, effectively-working social services fulfilling the needs of the inhabitants (educational and cultural as well as those connected with health and sport) and a well-developed communal infrastructure.

Area: **10,266 ha**

Population: **around 8,880**

The Pomiechówek community is located in the valley of the river Wkra in the northern part of the Mazovian Voivodship. It is bordered by the following communities: Serock to the east, Wieliszew to the south, Zakroczym to the west, Nasielsk to the north and Nowy Dwór Mazowiecki to the southern-north.

The mayor of the Pomiechówek community, Dariusz Bielecki, explains how he is going to support the investors' enterprises.

The Pomiechówek community creates conditions for investors conducting business activity in **the sectors which are not harmful to the environment**, i.e. in tourism, logistics, food processing. Our first step will consist in decreasing the number of the barriers which we, as the local government, can influence. That will mean enabling the investors to gain an immediate access to the information concerning the potential investment areas and preparing them for investments.

The Pomiechówek community has good **transport connections**: the **railway connection**, leading to Warsaw, to the coast and, through Nasielsk, in the western direction (railway line **E-65**); the **road connection**, i.e. the national road **No. 62**, joining the Kujavia-Pomerania Voivodeship with the Podlasie Voivodeship. Five kilometers away from the community there is the national road **E7** (Gdańsk, Mława, Płońsk, Warsaw, Cracow, Chyżne) and the road **No. 630** (Nowy Dwór Mazowiecki, Jabłonna). A 3-kilometre-stretch of the road **No.621** (Legionowo-Dębe-Nasielsk) also runs through the area of the community (the Zapiecki village).

The Municipal Council of Pomiechówek holds a title of a **RELIABLE PARTNER** and also possesses a **certificate** of the Encyclopaedia *Who's Who in Poland and Europe*, published by Polska Narodowa Oficyna Wydawnicza (The Polish National Printing House).

The investment policy of Pomiechówek is mainly aimed at the tourist development of the community, i.e. developing various higher-level recreation, sport, hotel and training facilities.

The investment advantages of the Pomiechówek community include:

- land prices, lower than those in Warsaw
- the high quality of natural environment

Partnership in the Valley of Three Rivers

ul. Paderewskiego 3B, 05-100 Nowy Dwór Mazowiecki
