

WIELISZEW COMMUNITY FAIR PLAY COMMUNITY

The Wieliszew community, located on the Zegrze Reservoir, fulfil the life needs of its inhabitants and creates its social and economic development in a planned way and according to the principles of the balanced development. The Wieliszew community is a wide known resort in the Mazovia.

Surface: 10,200 ha

Population: almost 8 000

The Wieliszew community is located in the middle part of the Mazovian Voivodeship, in the valley of Vistula and Narew, less than 30 km north away from Warsaw. The community is bordered by the following communities: Nowy Dwór Mazowiecki to the west, Pomiechówek and Serock to the north, Nieporęt to the east and Legionowo and Jabłonna to the south. The natural north border of the community is marked out by the Narew river and the 700 ha Zegrze Reservoir.

The mayor of the Wieliszew community – Waldemar Kownacki explains how he is going to support the investors' enterprises.

We are preparing basis for investments within the field of planning solutions. We are also developing our infrastructure and increasing the level of education. We are developing the sport facilities and encouraging people to develop business activity in gastronomy. We are conducive to creating the business environment on a larger scale.

The Wieliszew community has transport connections with the surrounding towns, Legionów and Nowy Dwór Mazowiecki, and with Warsaw, located less than 30 km away. The national road No. 61 Warszawa–Augustów and voivodeship roads No. 621 and 631 Nowy Dwór Mazowiecki-Warszawa, located in the neighbourhood, and the commuter train Warsaw-Nowy Dwór Mazowiecki make it possible for everybody to move within the area in a fast and efficient way. Buses provide for an access to every remote part of the community.

The Wieliszew community is a three-times winner of the competition “Community Fair Play: Certificated Location of Investments”, which also gives it the title of “The Gold Business Location”. The community has also gained the certificate of the action “Transparent Poland”.

The proximity of Warsaw and important communication routes as well as a dynamic development of the technical infrastructure makes the Wieliszew community an ideal place for investments. Local plans and the study of conditioning and the directions of land management project a multifunctional development of dwelling and recreational housing as well as extensive industrial and business activity.

Around 15 years ago a company producing medical equipment, RAVIMED Spółka z.o.o., which as the only one company in Poland and this part of Europe manufactures containers used for drawing and storing blood and practical blood chemistry, also started investments in our community.

The president of the company explains what constitutes the main advantage of this area:

The thriftiness, determination in the fulfilment of the planned purposes, ambition, willingness to do something, the sensibility of the local people and a new sort of mentality can be encountered at every step of the way. All that results in not only great technical and technological achievements, but also in a fame outside the Mazovian area.
